Fare You Well

That old familiar call, still a menace to us, and yet- in this case it means more than usual. Bennie's taking time out, and our Educational Adviser is calling for him. Fellows, many of you haven't had the educational opportunities you'd have liked. Some of you would like more education and learning. You see Mr. Merrin sits in his office almost all day in order to help anyone desiring to study. He is not a boss but he is here to help you fellows have what you want in education. It isn't any knife in his ribs if you don't take advantage of your chances. When a free show comes along, everyone is out. And you have to bump your anatomy twenty miles to get there. Our adviser gets paid for helping you boys. He and Smith have some classes that will be real valuable and a chance for all.

Its up to you fellows. Be indifferent or a wide-awake member. Its nothing to us, but if you'd like some more education in any field you want, come and get it. If you don't think we have what you want, call our Bluff. We will be seeing you.

-----

Douglass Reynolds of Jacksonville arrived in camp Dec. 30. Most of the boys who noticed him in the chow line in a nice dress suit thought that he must be a distinguished visitor; but as time went on we found to our great delight that he was an artist of some distinction.

He is drawing pictures of the camp which will be sent to Washington to help convince the people that the CCC should be permanent. If you want to see something really good, go and look at the pictures over his bunk.

-----

SILENCE!      ACTION!      CAMERA!

Hey- you over there, pull in your neck. Straighten up. Allright lets go. And our friend the camera man is grinding away. And he sure gets a treat. The camp goldbricks lose their luster, and are actually filmed at work. Talk about our astounding pictures. In the movies they can film anything - but when you get a picture of a group of CCC boys, all working at once, its nothing short of a miracle. I'm sure the world will know how hard working us CCC's are. And congratulations future movie stars.

## THE FIRST FOURTEEN DAYS IN CAMP

First Day: Arrived at Headquarters Good morning Captain. I am not a Captian, I am a first Lieut, weight outside. Yess sir. Another man in uniform comes along. I know him, he is the Dr. Him and the Capitan, ( No-Imean the Lieut) you know, the C.O., well anyway they head for No. 4 Barracks. With the Hospital apprintince brining up the reer while us birds is waiting in front of H.Q., another bird steps out . Gosh what a bird. Get going he says. I says who are you? To-kick, he says. Gosh I wish I was home cause that joker looks as if he could kick. Oh well, next thing I knew the Dr. is trying to find what holds me to gather. Some one must have lost a watch cause he had a long tube trying to hear it tick. Eaven wanted me to cough. I fooled him had a cold and couldn't next we went back to H Q. The C.O says hold up your right hand. I did I said I do. then he said you are in the C.C.C. and you are in quarantine for fourteen days and dammed if I ain't.

Again the top-kick said lets go. We did, we went to see the Supply Sarg. You know, he is a great guy, you will like him, he likes us too, cause he has us come to see him lots of times, He throwed some things at us, I did not know what they were, however I keep mine, and at noon I was glad I did, cause

I like to eat. The cooks are great only you eat what they give you or not. Only excitement in the camp is drawing some bedding and some clothes to work in, only we dont work. We got two suit of works clothes, the Supply Sarg sure has an interest in us, you see, You see I got two pair of pants for high water and one for low water. They were all right only I got in the high water pants too fer and they came almost to my nees.

Then after su per we got acquainted with the boys. What a wonderful bunch of boys, were they glad to see us ? AND HOW . They gave us a very warm reception. Some of the boys stood up for a week. The matter was this. They lined up in double rank with bout four foot between. Then they put us in at one end of the line and starte d the interductions. I dont know much about rest of the boys, but I wanted to be socialble and shake hands, but darned if I did not forget all about that part of it. I were lucky, I got to collect two bits from Poolo, and Chäcken for playing on the back of my coat tail.

After all is said and done we got a warm reception.

### Florida Fair

On January 29 th the annual Florida Fair opens at Tampa. It is planned that the C.C.C. companies in South Florida have an exhibit space and display any thing that shows camp activity or camp life. It is hoped that this company will enter it's share of articles. We already have several baskets made from palmetto leaves and we hope to have a board display with sixty-four different knots shown. We are now waiting for cord for these knots and for belt making. If anyone can help make these or have had any experience in making any handicraft or hobby craft we need your help in preparing for the Fair. Time is getting short and to keep up company 1221's record let's get busy--if you can help let S.F. Williams (the man with the crippled) Or anyone of the educational staff and we and we will get the material to work with.

### Barracks Breezings

Poor old Carter he couldn't even take it as chambermaid.

Old Gourdhead is getting somew where now. On the basketball squad he sure does a nifty job of bench-warming.

## SPORTS

## Miakka-vs.-Sulpher Springs

Disclosing a fast brand of basketball Co. 1421 swarmed all over the five men representing Sulpher Springs to the tune of 30 to 7. With a combination of fine passing and accurate shooting the forwards ran all over the Sulpher Springs guards scoring almost at will.

Cone and May took high scoring honors with 18 and 10 points respectively.

J. Conway at center outjumped the opposing center to take a majority of the Tip-Offs and place the ball in scoring position.

Dennard and Leiro held down the backcourt, and did a swell job. Sulpher Springs were only able to score two field goals against them.

Co. 1421 committed nine personal fouls against four by Sulpher Springs. McDougal was high point scorer for the upstaters, with two field goals and one free throw.

If the team continues to keep the pace it already has set, the trip to Miami is almost certain.

## Mr. Stem New Man On Staff

Mr. Thayer Stem of Sarasota has been employed by the F.E.R.A. to help in the educational and athletic program of the camp.

Now that the construction of the camp is practically completed we can organize study groups in different subjects and hobby crafts.

Besides the benefit each individual from anything he learns while in the C.C.C.'s, the company gets credit for the work accomplished and this helps in our rating with other camps. The men in the educational department will be glad to discuss with anyone prospective work.

Thursday afternoon it was necessary to return the piano we were using in the recreation hall to the owners.

It was impossible to have a dance Friday night but we will have another soon. The company will be notified in plenty of time before hand so that dates can be made and visitors from the surrounding towns invited.

No.2 barracks has been pretty quiet lately. It seems quite strange.

No one but Rinker and Willis have been catating any fish lately. What have they got?

If all the boys who intend to, have themselves painted, Mr. Reynolds will have enough work at hand to keep him busy for a long time. If, by any chance some look in a mirror they will probably decide against it.

Well some of the boys are starting to drag in from their leaves. From the looks of them they need another leave to recuperate from the last one.

Fresh meat is beginning to arrive in camp now. In a little while, however it will be plenty salty.

Bennie says the L.E.M.'S sure are experienced. they are the best goldbricks to ever hit camp.
